John Frazier Newton, who died Thursday night, was one of the Printing Profession's few remaining "craftsmen" who began apprenticeship at the munificent wage of \$5 per week with hopes, after four years, of reaching the top weekly wage of around \$15.

Mr. Newton, it is believed, was the oldest working member of his Typographical Union when he retired, and was among the oldest at the time of his death.

By preference, Mr. Newton has been a citizen of Florida more than 30 years, with some 20 years of this time in the Glades.

He was the first, and only at that time, printer for The Herald and completed his working days here. Though retired for several years, his visits to the shop were always an occasion for questions and good-natured banter between the two.

He had lived four score and ten and was to have left behind a high regard of his friends and acquaintances, the respect and admiration of his professional peers, and the devoted companionship of his wife, Adelaide, a goal which may well be emulated by many of our younger generation.

Mr. Newton was a rugged individual in thought and action; he aspired to stand on his own feet, even when emulated by many of our individuals associated with the community.

He was a better unit of the community because of his 40 years' association with individuals associated with the community.

## County Solicitor Charges \$347 Waste In District 8 Peace Justice Case

District Eight Peace Justice Mrs. Alene Cherry has filed back an answer to County Solicitor Charles A. Nugent's charge that Mrs. Cherry submitted a case for prosecution on a charge that doesn't exist.

In an east coast newspaper article Nugent charged that the case cost the county \$347. In examining the warrant issued by Mrs. Cherry Nugent said that Belle Glade woman was charged with desertion by leaving her husband and two minor children. He said if she had been divorced and was in custody of the children and then left them, she could be charged with desertion; otherwise, not.

Nugent went on to say that the costs were not explained by Mrs. Cherry's reply said: "In answer to Mr. Nugent's charge that I, Alene S. Cherry, have submitted a case with an existing charge of child desertion, I was unaware of the fact that the case had been charged to the Florida State Chapter No. 856, Statute No. 856.04 which reads that a wife or husband can be charged with desertion. In this case the defendant, Evelyn Hedrick, charged the charge, her husband signed the affidavit and this was in her, 1959, 232-50; 688 miles traveled out of the state, \$46.82, and \$6.43, judge's costs. Mileage charged was there and back for the sale had been completed. Mrs. Cherry added that an explanation of expenses was normally submitted to the county.

## SRD May Whack C Of C Corner

State Road Department workers may or may not get around to widening Belle Glade's Main St.-A. An intersection sometime this summer, according to City Manager C. B. Talmadge.

Talmadge said last fall an SRD representative was asked to visit Belle Glade to study whether the corner at the Chamber of Commerce building could be cut off to provide more space for large trucks to turn north from South Canal St. (E).

Accordingly, the SRD man informed the city that the work would be set up for this summer when the season closed. Talmadge said he has written SRD telling them that they can't do it; however, at this time the work has not been confirmed.

## Operation Big Splash

After spending some \$200,000 to build two municipal swimming pools, the city of Belle Glade hired a responsible, trained swimming pool instructor who set to work almost the minute he got the job to initiate swimming programs and make good use of the pools.

The man has formed swimming teams, swimming clubs, swimming schools for young and old, and all these programs are aimed at one thing: Make better use of the pools.

The other day, he submitted to the art of swimming, a young boy splashed into the water and swam. He'll be learning how to swim better and better from now on. There's a pretty good chance his parents won't be worried about their little boy being around bodies of water. He can swim.

We're betting a lot of other parents would like to have that feeling. We submit that they can begin to have that feeling by making certain their youngsters are enrolled in a part of the active swimming programs which are now in progress.

If some life is saved by a knowledge of swimming learned through one of these programs, we're certain you'll agree we've got our \$200,000 back with a good bit of interest.

## Man's Best Friend

Man's best friend, the dog, may not be his buddy anymore if they all learn about the way dogs at the Belle Glade dog pound are being treated. City councilmen listen to protests over the treatment of the dogs receive and take no action. They agree that not much can be done until the sewage treatment plant is completed and a suitable site built there instead of the present location at the dump.

The problem is compounded by the fact that a responsible game warden can't be found for the city who will collect and care for the dogs at \$40 per week.

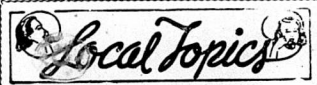

Housed in the cramped wire cages which measure about six by six feet square this week were: A mother dog

with five pups, one dead, one dying and the rest starving with the mother; another dead dog, one dog bleeding from the nose, another with mange or similar affliction, all hungry.

They were being fed garbage. It was plain that a fire at the dump had come close enough to singe grass and burn boards around and on top of the fly-infested hovel. It was also evident that the pens hadn't been cleaned in a long time.

Florida statutes say: "Whoever impounds or confines any animal in any place and fails to supply the same during such confinement without a sufficient quantity of good and wholesome food and water... or abandons to die any animal that is maimed, sick, infirm or diseased, shall be punished by imprisonment not exceeding six months or by fine not exceeding \$100..."

We feel that such treatment of animals is a disgrace to the city. When one sees a litter of pups covered with filth and flies and confined in the stench of a dump, one must surely feel enough compassion to help the creatures or put the mout of their misery.

## Mt. Zion AME Church News

By Mrs. E. M. Taylor  
Mothers Day was celebrated with acclaim at Mt. Zion, A. M. E. Church, with the traditional profusion of red and white flowers and a program honoring the oldest, youngest and mothered with the most children. Mother Vereen of Immokalee, formerly of Belle Glade, received an award for being the oldest; her granddaughter, Mrs. Jack Freeman, the most children award.

Mrs. Barbara Humphrey, daughter of the Rev. and Mrs. Milton Fayson, the youngest mother. A fitting tribute was paid to all mothers in the sermon, which was rewarding and inspiring to all.

The building fund drive on last Sunday was a great success, considering the exodus of so many of the members. A number of the faithful made the trip to Boynton during the pastor and his wife to give spiritual and financial uplift to our Sister Church, pastored by the eminent Rev. Blake.

The sisters of his beautiful and well-appointed church spared no effort in making our visit one of the most memorable. There was an abundance of food served in the most tempting of fashion, heaping bowls, and platters of delicious viands, with courteous ladies to serve them, was all that anyone could wish for.

The Rev. Milton Fayson, in characteristic Fayson manner, dealt sin and neglectfulness of food served in the most tempting of fashion, heaping bowls, and platters of delicious viands, with courteous ladies to serve them, was all that anyone could wish for.

## Latest Developments In Bird Squawking At South Bay Reported

Bill Masonic, South Bay resident who owns those peacocks that the neighborhood was threatening with extinction the other day, avers this is true. They haven't squawked—lo speak—since the article appeared in The Herald in which it was reported that the feathery little creatures were going to be shut by city ordinance to shut their yap at night. (Well, everybody reads The Herald.) Allegedly, they chirped loud and long at night which was trespassing at the time. As the ordinance was proposed, no loud noises at night were going to be tolerated either from juke boxes or from creatures (we think).

Although this situation is complicated, there certainly may be a provision to allow those peacocks to serve as watchdogs—or watchbirds, or whatever they're called.
